

SAM650/655

Communication Software

Affordable automation for your Samsung ER-650/655.

Polling software for all types of point-of-sale applications.

SAM650/655 efficiently transports point-of-sale data from your Samsung ER-650/655 electronic cash registers to your personal computer. Let SAM650/655 manage your complete point-of-sale tasks by quickly communicating critical financial and sales data from your local or remote store locations.

SAM650/655 Communication Software

Report Polling Features

- Poll on-site or remotely located Samsung ER-650 and ER-655 ECRs.
- Poll manually or unattended.
- Polling can be programmed to take place at a predetermined time.
- Poll multiple stores or registers.
- Access all store terminals through the master terminal in an IRC system.
- Choose which terminal reports you wish to poll from each store.
- Modem or direct connect communications.
- Poll data is stored in a standard ASCII format.
- Print reports in a standard 8½" x 11" format directly from SAM650/655.

SAM650/655 Features

- No limit on number of stores.
- Display/print daily polled data.
- Display and print PLU file.
- Import/export.

- Navigate with total use of the mouse.
- Create and print color key-boards.
- Stock cost reporting.

Program Your Terminal From Your PC

- All program information can be uploaded or downloaded.
- Program the entire terminal from the PC.
- Error checking for illegal entries when editing your program information.

SAM650/655 Provides Software Compatibility For Your Application

All polled data is stored in an ASCII text format, making it easy to import into your favorite application software. (Spreadsheets, databases, word processors, accounting, etc.).

- All polled data is stored in a daily file for each day. These files are very useful for archiving.
- Inventory and/or multiple store consolidation software available.

SAM650/655 System Requirements

Computer:

- Pentium or faster CPU.
- 32 MB RAM.
- 150 MB minimum hard disk space available.
- Dedicated serial port (RS-232C).
- CD ROM drive or 3.5" floppy disk drive.
- VGA or SVGA display.

Computer Software:

- Windows* 95/98/2000/ME.

Remote Communications:

- Hayes* compatible modem at the computer.
- Hayes* compatible auto answer modem at the Samsung system terminal.
- Dedicated phone lines are recommended.

Samsung ER-650/655 System:

- One RS-232C port is used for standalone terminal, or for the master terminal in an IRC configuration.
